Profile Summary

Aspiring **Software Development Engineer** with strong foundations in **Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks**. Experienced in developing full-stack applications using Java, Spring Boot, React.js, REST APIs, and AWS. Passionate about solving real-world problems and building scalable software solutions.

Education

Koneru Lakshmaiah University (KL University)

2023 – Present

Bachelor of Technology in Computer Science and Engineering (CSE) - CGPA: 9.45/10

Vijayawada, Andhra Pradesh

Sri Chaitanya Junior College

2021 – 2023

Intermediate (MPC) - Marks: 932/1000

Eluru, Andhra Pradesh

S.K The School of Knowledge

2020 – 2021

Secondary School Certificate (SSC)

Eluru, Andhra Pradesh

Technical Skills

Programming Languages: Python, Java, C, SQL

Core CS Concepts: OOP's, DBMS, Operating Systems, Computer Networks, Data Structures and Algorithms

Technologies/Frameworks: React.js, Spring Boot, REST APIs, Git, GitHub

Problem Solving: Strong problem-solving skills with hands-on coding experience

Cloud: Amazon Web Services, Google Cloud Platform

Projects

Hemohub – Online Blood Bank System | AWS, React.js, Spring Boot, MySQL, REST API

February 2026

- Developed a full-stack blood bank management system to connect donors, hospitals, and patients.
- Implemented donor registration, blood availability tracking, and request management functionalities.
- Built REST APIs using Spring Boot and integrated them with React.js frontend components.
- Designed and managed MySQL databases for donor records, blood inventory, and blood requests.
- Deployed the application on AWS for reliable access and scalability.

Disaster Management System | React.js, Spring Boot, MySQL

May 2025

- Developed a disaster management platform for incident reporting and emergency response coordination.
- Implemented secure authentication and role-based access control for different users.
- Developed REST APIs using Spring Boot and integrated them with React.js frontend modules.
- Designed MySQL databases to manage disaster records, emergency resources, and user information.
- Used Git and GitHub for version control and project management.

Certifications

- **AWS Cloud Practitioner** - View Credential
- **Microsoft Certified: Azure Fundamentals** - View Credential

Coding Profiles

- **CodeChef:** [klu_2300031575](#) – Practicing competitive programming and problem solving
- **HackerRank:** [h2300031575](#) – Solved programming and SQL challenges
- **LeetCode:** [dheeraj_margani](#) – Regular practice of DSA and coding interview problems
